- The Adult Basic Education Association of British Columbia is a professional association, which fosters and promotes excellence in Adult Basic Education instruction and programming.
- Its vision focuses on excellence in professional development and recognition of the unique perspective of the practitioner in the design and implementation of policy and programming.
- Practitioners, students, researchers, and others involved in the field of Adult Basic Education are invited to attend the annual ABEABC conference for professional or personal development by participating in the Conference's program of keynote speakers and presentations by practitioners and researchers.
- Topics applicable to working with ABE and/or ESL learners are selected, and these practical and interactive smaller group presentations have been very popular with past conference participants.
